

BURY ST EDMUNDS MODEL RAILWAY CLUB

PECKSTON

“N” GAUGE

Layout Description / Programme Notes:

This layout is entirely freelance. Based very loosely on M&GN (Midland & Gt. Northern Railway) in the steam era, somewhere to the west of Melton Constable on the Gt. Yarmouth to Bourne line in Lincolnshire.

It started life as a first attempt by our late Treasurer Geoff Peck, as an Engine Shed depot, to display his collection of locomotives. On his passing, his partner Brenda, donated it to the club, and two of our Members were asked to try to make something of it to exhibit at our own show, in his memory. This is what we came up with. Using board, tracks, points and point motors Geoff had used.

We hope you like what you see and if you are wondering whether you can make a layout yourself, we hope Peckston has given you some inspiration.

Please feel free to ask questions about the layout. The operators love to talk.

Layout Details for Exhibition Manager

Size of Layout:	6ft x 2ft 6 inches
Overall Size:	8ft x 7ft
Operators:	4
Insurance Value:	£3,000
